Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ On May 28, 2026, Mission Produce, Inc. ("MPI") completed the acquisition of Calavo Growers, Inc. ("Calavo") pursuant to a merger transaction in which Calavo Shareholders received a combination of cash and shares of MPI common stock in exchange for their Calavo common stock. As a result of the transaction, Calavo common shares were cancelled and Calavo shareholders became entitled to receive the merger consideration.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ In the merger, each share of Calavo common stock ("CVGW") was converted into the right to receive (i) \$14.85 in cash and (ii) 0.9790 of MPI common stock ("AVO"). The transaction is intended to qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code. Accordingly, a U.S. holder of CVGW generally recognizes gain (but not loss) equal to the lesser of (i) the excess, if any, of the sum of the cash and the fair market value of the AVO received over the holder's adjusted tax basis in the CVGW shares exchanged, and (ii) the amount of cash received. The aggregate tax basis of the AVO shares (including any fractional shares deemed received) by a U.S. holder will generally equal the holder's aggregate tax basis in the CVGW shares exchanged, decreased by the amount of cash received and increased by any amount of gain recognized (excluding any gain treated as a dividend). The holding period of the AVO shares received will generally include the holding period of the CVGW shares exchanged, except with respect to any fractional shares deemed received.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ The fair market value of the Mission Produce stock (NASDAQ: AVO) is based on the closing price of \$11.25 per share on May 28th, 2026.

Part II Organizational Action (continued)

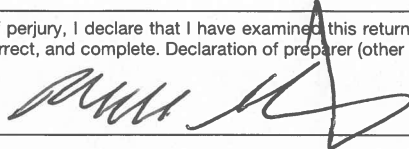

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ▶ The tax treatment described herein is based upon Sections 354, 356, 358, 368(a), and 1223(1) of the Internal Revenue Code, and the Treasury Regulations promulgated thereunder.

18 Can any resulting loss be recognized? ▶ No. A shareholder generally may not recognize a loss upon the exchange of Calavo Growers, Inc. common stock for Mission Produce, Inc. common stock and cash in the merger. Any realized loss is generally deferred and reflected in the tax basis of the Mission Produce, Inc. common stock received.

19 Provide any other information necessary to implement the adjustment, such as the reportable tax year ▶ The organizational action described herein is reportable for U.S. federal income tax purposes for the 2026 tax year. Shareholders should retain records relating to their basis of the Calavo Growers, Inc. common stock and consult their tax advisors regarding the application of the basis adjustment and gain recognition rules described above.
